Long Answer Type Questions

Q1. A bill of exchange must contain "an unconditional promise to pay". Do you agree with a statement?

Solution:

According to Negotiable Instrument Act, 1981, "A bill of exchange is defined as an instrument in writing, containing an unconditional order, signed by the maker, directing a certain person to pay a certain sum of money only to, or to the order of, a certain person or to the bearer of the instrument."

As the definition mentions the bill is an unconditional order to pay i.e. no conditions should be applicable with respect to the payment and the drawee of the bill is obliged to pay the maker of the bill. This is one of the main features of a bill of exchange. All the conditions with respect to the bill, for example; the amount, the date of payment, the parties involved needs to be specified with clarity.

Q2. Briefly explain the effects of dishonour and noting of a bill of exchange.

Solution:

On the maturity of the bill, when the acceptor of the bill fails to make the payment, it is said

that the bill is dishonoured. This restores the liability of the acceptor.

Entry in the books of drawer:

Drawee A/c	Dr.
To Bills Receivable A/c	
(Being bill dishonoured)	

Entry in the books of drawee:

Bills Payable A/c	Dr.
To Drawer A/c

Noting charges is the fee paid to the notary public for noting and protesting the bill of exchange of its dishonour.

Drawee A/c	Dr.
To Bills Receivable A/c	
To Cash A/c (Noting charges)	
(Being bill dishonoured and Noting charges paid)	

In the books of drawee:

Bills Payable A/c	Dr.
Noting charges A/c	Dr.
To Drawer A/c	
(Being bill dishonoured and Noting charges due)	

Q3. Explain briefly the procedure of calculating the date of maturity of a bill of exchange?

Give example.

Solution:

The procedure to calculate the date of maturity of a bill of exchange is given below.

1. Determine the date on which the bill will be due.
2. Add three days of grace to the due date of the bill. It is standard process to add days of grace.
3. The date obtained after adding the three days to the due date is called the maturity date of the bill.

However, the application of the days of grace depend on the following situations:

1. Days of grace are not applicable when a bill is payable 'at sight' or on demand.
2. When the period of the bill is mentioned in months, the calculation of the maturity date will be in the terms of calendar month.
3. When the period of the bill is mentioned in days, the calculation of the maturity date is also calculated in days including the date of payment but excluding the date of transaction.
4. If the bill matures on a national holiday or Sunday, then the preceding business day becomes the maturity date of the bill.
5. For example, if the maturity date of a bill is calculated as on 15th August, 2015 then the preceding day that is 14th August, 2015 will be considered as the maturity date.
6. If the maturity day happens to be an emergency holiday declared under the Negotiable
7. Instruments Act, 1881, then the next working day is to be considered as the maturity date.

Q4. Distinguish between bill of exchange and promissory note.

Solution:

Bills of Exchange	Promissory Note
It is an order to pay.	It is a promise to pay.
There are three parties involved, drawer, acceptor and payee.	There are two parties involved, maker and payee.
It is drawn by the creditor.	It is drawn by the debtors.
It needs acceptance by the drawee.	Acceptance is not required.
Drawer and payee may be the same.	Promissor cannot be the payee.
In case of dishonour of the bill, the bill may get noted.	Noting is not necessary.

Q5. Briefly explain the purpose and benefits of retiring a bill of exchange to the debtor and the creditor.

Solution:

When the drawee of the bill pays off the amount of the bill before the maturity of the bill it is called retirement of the bill. Holder of the bill may give discount for such earlier payment which is called as 'rebate'.

As the holder of the bill provides the rebate, it is a loss for the holder of the bill and hence it is debited in the books of the holder when payment is received.

Cash A/c	Dr.
Rebate A/c	Dr.
To Bills Receivable A/c	

(Being payment received and rebate allowed for early payment)

The rebate is a gain for the drawee; so, it is credited in the books of the drawee.

Bills Payable A/c	Dr.
To Cash A/c	
To Rebate A/c	

(Being bill paid before the due date and rebate received for early payment)

Note: In this question, there is a contradiction. As per the discounting rule-Bank is regarded as the holder of the bill. It is the bank who presents the bill for payment and also pays the noting charges on behalf of the drawer (Lilly). However, as per the question. Lilly, who is presenting, discounting the bill and also paying the noting charges. Thus, in the solution, we have assumed that it is bank and not Lilly who presents, discounts and pays the noting charges in case of dishonour of bill.
